

# Alireza Rahimpanah

## Front-End Developer - junior

DoB: 2005-06-26

Marital Status: Single

Military Service: Educational Exemption

Birjand, South Khorasan , Iran

### Profile Summary

Over 2 years of experience in web development using HTML, CSS, JavaScript/TypeScript, Proficient in React, bootstrap , Tailwind CSS, and Git.  
Skilled in building responsive UIs and RESTful APIs.  
Familiar with Next.js, Docker

### Work Experience

#### Front-End Developer Intern

(Jahad-e Daneshgahi)

Birjand, South Khorasan , Iran

December 2023 - August 2024

##### Tasks and Achievements

- Built product display pages using Bootstrap/JavaScript and fixed responsive layout issues on mobile devices .
- Built React interfaces consuming REST APIs (Axios/fetch), handled data fetching/caching, debugged responses (status codes/error states), and documented integration patterns.
- Learned Git fundamentals for team collaboration and practiced Jira for task tracking.
- Studied semantic HTML/CSS best practices under guidance of Mr. Mohajer.
- Documented technical solutions for knowledge sharing with team members.
- Suggested better component organization that was adopted by the team.
- Consistently delivered tasks before deadlines, taking on additional responsibilities when needed.

#### Team Project: Trade Bot Panel

Frontend-Backend Collaboration

Iran

September 2024 - January 2025

##### Tasks and Achievements

- Worked alongside backend developer to implement Django functionality including:
  - Form handling for user input validation
  - URL routing configuration
  - Basic API endpoints for data exchange
- Contributed to development of Trade Bot Panel interface:
  - Connected frontend (JavaScript/Bootstrap) to Django backend
  - Assisted in debugging form submissions and API responses
  - Participated in testing and refining user workflows

### Education

#### Bachelor of Computer Science

Branch: software

Institute/University: bitrjand university

Birjand, South Khorasan , Iran

2023 - Present

GPA: 17.9 (Top 10% of class)

## Projects

---

### Game Hub (React, ChakraUi)

April 2025

Integrated RAWG.io API to fetch and display 10,000+ games with advanced filtering.

Achieved 95% Lighthouse accessibility score via mobile-first, responsive design.

Mentored by Mosh Hamedani (Udemy instructor).
